1 Introduction

1.1 Course:

The course I enrolled is *CS50*, you can find it here <https://learning.edx.org/course/course-v1:HarvardX+CS50AI+1T2020/home>

I started to enroll this course in 19th October in 2023, but just really getting started with it in November

Important dates

○ Thu, Oct 19, 2023

Course starts

● Thu, Dec 14, 2023 **Today**

● Sun, Dec 22, 2024

Verification Upgrade Deadline

You are still eligible to upgrade to a Verified Certificate! Pursue it to highlight

2 Learning Process:

This course is divided in many section. Each section have a topic that really similar with the syllabus you give me, so it is a good chance for me to review and self- study, also learning from many different sources .

After each section, I have to do a quiz and some project that is given by the course. I also started to do projects soon but I forgot to submitted it so up to now, some projects

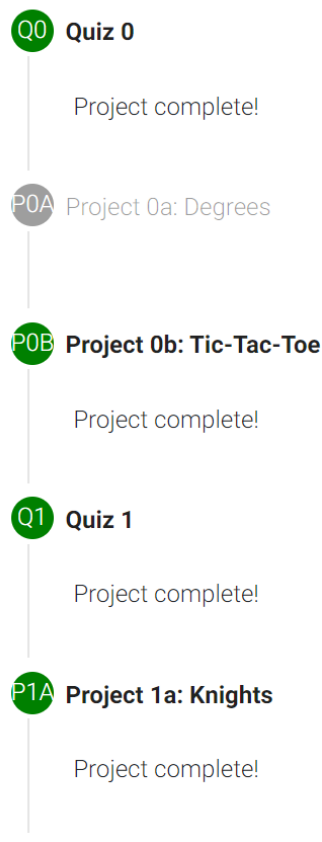

I have submitted haven't been graded yet.

During the learning process, I found some difficult below:

- The language, of course, the course is in English, so there are many key-words and terminologies that I have seen for the first time, so I have to research a lot to understand the context and the meaning of them.
- Also, Some project is about something really new, some topic like Nim or Page rank, or heredity is so strange for me.

But luckily, this is a popular course, so there many many instructors and tutorial that I can follow, Also, the explanation in the course is also very detail.

This is the result of my learning process up to now:

P1B Project 1b: Minesweeper

Your submission has been received. Be sure you've submitted your Google Form as well! It may take up to three weeks for your submission to be graded, please be patient. Also note that your submissions will not necessarily be graded in order.

Q2 Quiz 2

Project complete!
